Phone: (804) 922-7270 Address: 2001 N adams st, Arlington, VA 22201 Email: samuelksites@gmail.com

Experience

CACI August 2021-Present

- **FMBT Conversion team Aug 2021-Dec 2022:** Worked on the conversion team to convert and crosswalk historical VA data to an acceptable format that can be used in the integrated Financial and Acquisition Management System (iFAMS). Developed custom pipelines that converted the data using Jenkins and PL/SQL.
- **FMBT Interfaces team Dec 2022-Present:** Worked on developing, proxies, and passback services. These services served as bridging points for the VA trading partners and the iFAMS system, allowing for the transportation of financial data between the two. These services are created using Java and PL/SQL, and are deployed in OpenShift pods.
- **FMBT PySel team Dec 2022-Present:** Created a custom Python web automation application using the Selenium web driver package. Developed new features (such as a GUI), custom webactions, the ability to interface with Oracle databases, and a custom output report.
- FMBT team summer 2022, 2023 and 2024 intern mentor:** Served as a mentor for interns on the project. Guided them on the processes of Agile development, good coding practices, and how to easily integrate into the workforce. Helped curate the tasks and projects they worked on while also encouraging them to have autonomy.

Education

College: James Madison University | ABET – Accredited **Graduated:** May 2021 **Major:** B.S. Integrated Science and Technology

- **Concentration:** Information Knowledge Management (Machine learning)
- **Minor:** Computer Science

Cumulative GPA: 3.44 | **Major GPA:** 3.52

President's List: Spring 2021 **Dean's List:** Spring 2018, Fall 2018, Spring 2019 & Spring 2020

Technical Skills

Programming Languages: Java, Python, C#, HTML5, JavaScript, TypeScript, React, CSS, TensorFlow, AWS, Practice in Full Stack Development, PostgreSQL, MongoDB, PL/SQL

Programming Related Skills: SCRUM/Agile development, AWS, Salesforce, Jenkins, Agility, OpenShift

Problem-Solving: Experience in holistic problem solving using software such as Vensim and Stella Architect to model and understand complex problems.
